IMPORTANT - READ BEFORE USING THE ACCOMPANYING SOFTWARE

MICROSCRIBE® SOFTWARE DEVELOPMENT KIT SOFTWARE USE LICENSE AGREEMENT

PLEASE READ THIS MICROSCRIBE SOFTWARE DEVELOPMENT KIT LICENSE AGREEMENT ("AGREEMENT") CAREFULLY BEFORE INSTALLING THE MICROSCRIBE SOFTWARE DEVELOPMENT KIT. BY ACCESSING ANY OF THE MATERIALS INCLUDED IN THIS SOFTWARE DEVELOPMENT KIT OR ASSOCIATED EXAMPLES, YOU INDICATE YOUR ACCEPTANCE OF THE TERMS AND CONDITIONS OF THIS LEGAL AND BINDING AGREEMENT, AND CONSENT TO BE BOUND BY SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, DO NOT USE THE SOFTWARE DEVELOPMENT KIT. USING ANY PART OF THE SOFTWARE DEVELOPMENT KIT INDICATES THAT YOU ACCEPT THESE TERMS.

DEFINITIONS

(a) An "End-User Product" is software which (i) contains Embedded Code, (ii) operates with Permitted Peripheral Devices, and (iii) uses Embedded Code solely to operate with Permitted Peripheral Devices. An add-in for Revware's MicroScribe Utility Software (MUS) that is built with the MUS add-in authoring kit included in the Licensed Software is an End-User Product, and the compiled form of that kit incorporated into such an add-in is Embedded Code.

(b) A "Permitted Peripheral Device" is any Revware MicroScribe digitizing device which (i) permits a user to collect position and orientation data and use that data to manipulate objects in a computer generated representation, and (ii) is supported by the Licensed Software.

(c) The "Licensed Software" is Revware's MicroScribe SOFTWARE DEVELOPMENT KIT and any related examples that may be provided independently which, in conjunction with compatible Permitted Peripheral Devices, may be used for collecting position and orientation data and manipulating objects in a computer generated representation, and which consists of binary code, certain header files and sample files which Revware may provide in source code format, and associated documentation.

(d) The "Embedded Code" is code that is incorporated into or modified within a product developed by Developer in whole or in part through the use of the Licensed Software by Developer, or as a result of the copying or duplication by Developer of code created by a third party in whole or in part through the use of the Licensed Software.

(e) A "Publisher" causes the End-User Product to be reproduced and distributed to end-users, whether directly or indirectly, via the Internet or otherwise. A Publisher may also be the Developer, or may have retained Developer to create the End-User Product.

LICENSE: Revware grants Developer a non-exclusive, non-transferable, worldwide license to download and use the Licensed Software to create End-User Product(s), and to reproduce and distribute the Redistributable Components (defined below), in object-code form only, solely as an integral part of an End-User Product, to an unlimited number of end users, without payment of royalties or further fees to Revware.

"Redistributable Components" means the ArmDll32 and ArmDll64 dynamic-link libraries and the Models, exactly as supplied by Revware in the Licensed Software. Header files, import libraries, sample source code, documentation and all other parts of the Licensed Software are not Redistributable Components and may not be distributed.

Developer has no right to, and agrees not to, display, perform, copy, distribute, license or sublicense copies of the Licensed Software or the Embedded Code except as a part of or within an End-User Product.

Developer's use of the Licensed Software is subject to the following additional terms:

(a) Developer may use the Licensed Software only on development and demonstration computer systems within their organization or that of directly managed sub-contractors;

(b) Developer may make a reasonable number of copies of the Licensed Software in machine-readable form and may store Licensed Software on computer networks owned and controlled by Developer, including but not limited to version control systems, file servers, desktop, and laptop computers. Licensed Software shall be accessible by employees and contractors of Developer that are subject to a binding Non-Disclosure Agreement, solely for development use and backup under the terms of this agreement;

(c) Developer must include all copyright notices and any other proprietary rights notices appearing on the Licensed Software on any copies that Developer makes, and must display the following notice within the End-User Product wherever copyright notices of contributors are displayed to end users, and within Developer’s source code: "Portions copyright (c) 1992-2026 Revware, Inc., or its subsidiaries. All rights reserved."

(d) Developer shall distribute the Redistributable Components only (i) unmodified, (ii) under their original file names, (iii) as an integral part of an End-User Product and not on a stand-alone basis, and (iv) under an end-user license that protects Revware’s rights in the Redistributable Components at least as well as this Agreement. Developer shall not rename, patch, wrap for the purpose of concealing origin, decompile, alter, or create derivative works of the Redistributable Components without the prior written consent of Revware. Developer shall not make, distribute, rent or otherwise provide access to copies of any other part of the Licensed Software.

LIMITED RIGHTS: The foregoing license gives Developer limited rights to use the Licensed Software. Revware retains all title to, and ownership in, the Licensed Software, and all copies thereof. Except as explicitly set forth above, (i) except for the distribution of Redistributable Components expressly

permitted above, Developer is not permitted to lease, rent, distribute or sublicense the Licensed Software or to use the Licensed Software in a time-sharing arrangement or in any other unauthorized manner; (ii) no license is granted to Developer in the human-readable code of the Licensed Software (source code) other than the right to use and modify the sample source code in the creation of End-User Products; and (iii) this License Agreement does not grant Developer any rights to patents, copyrights, trade secrets, trademarks, or any other rights in respect to the Licensed Software, including, without limitation, any rights to any updates, enhancements, corrections or new versions of the Licensed Software, or any rights to practice under any Revware patents.

If Developer wishes to obtain any updates, enhancements, corrections and new versions of the Licensed Software, Developer may contact Revware for a license to such software. If Developer wishes to obtain a license under any Revware patents, it may contact Revware for that purpose as well.

COMMERCIAL TERMS; LICENSE SCOPE: The Licensed Software is offered solely to businesses, institutions, government bodies, and professionals for use in their trade, business, or profession, and not to consumers. The person accepting this License Agreement on behalf of an organization represents that he or she has the authority to bind it. The license granted above is a site license: it covers use of the Licensed Software by Developer at the single physical location identified in Developer's purchase, including use away from that location by persons normally based there. Each additional location of Developer, and each organizationally separate unit that operates independently (for example, separate departments of a university or separate divisions of a company), requires its own license. The license fee is payable in advance, is non-refundable once the Licensed Software has been downloaded or accessed, and covers the version of the Licensed Software purchased together with any maintenance releases of that version that Revware chooses to make generally available to its licensees. New versions are licensed separately on Revware's then-current terms. Revware's purchase confirmation, invoice, or web-store record identifies the Developer, the site, and the version licensed.

TRANSFER AND ASSIGNMENT: The Licensed Software is licensed, not sold, and this License Agreement is for the sole benefit of the original purchaser of the Licensed Software (the "Developer"). Developer may not sell, transfer, assign, sublicense, rent, lease, lend, or otherwise make available the Licensed Software or this License Agreement, in whole or in part, to any other person or entity, whether voluntarily, by operation of law, by merger or change of control, or otherwise. The rights granted to Developer may be exercised on Developer's behalf only by Developer's employees and by contractors engaged by Developer, in each case solely for the purposes permitted by this License Agreement and only while that person is bound, through a written contract with Developer, to terms at least as protective of Revware and the Licensed Software as those of this License Agreement. Developer is responsible to Revware for the acts and omissions of its employees and contractors with respect to the Licensed Software as if they were Developer's own. Any attempted transfer or assignment in violation of this section is void and, at Revware's election, terminates this License Agreement. Revware may assign this License Agreement, in whole or in part, without notice to or consent of Developer.

NO REVERSE ENGINEERING: Modification, reverse engineering, reverse compiling, or disassembly of the binary (not human readable) components of the Licensed Software is expressly prohibited. However, if

Developer is a European Union ("EU") resident, information necessary to achieve interoperability of the Licensed Software with other programs within the meaning of the EU Directive on the Legal Protection of Computer Programs is available to Developer from Revware upon written request.

EXPORT RESTRICTIONS: Developer agrees that it will not export, re-export, or otherwise transfer the Licensed Software or accompanying documentation (or any copies thereof), or any product utilizing the Licensed Software or such documentation, except in full compliance with all applicable export control and economic sanctions laws and regulations of the United States, including the Export Administration Regulations and the regulations administered by the Office of Foreign Assets Control of the U.S. Department of the Treasury, and, if Developer obtained the Licensed Software in a jurisdiction outside the United States, also the applicable export laws and regulations of that jurisdiction. If the requirements of the United States and those of another jurisdiction conflict, Developer shall comply with the requirements of the United States, which take precedence for the purposes of this License Agreement. Developer represents that it is not located in, organized under the laws of, or ordinarily resident in any country or territory subject to comprehensive United States sanctions, and that it is not a person or entity to which export is prohibited or restricted under the laws of the United States. Revware has determined that the Licensed Software is classified EAR99 under the Export Administration Regulations; that classification does not relieve Developer of its obligations under this section, including those concerning prohibited end users, end uses, and destinations.

TRADE SECRETS; TITLE: Developer acknowledges and agree that the structure, sequence and organization of the Licensed Software are the valuable trade secrets of Revware and its suppliers. Developer agrees to hold such trade secrets in confidence. Developer further acknowledges and agrees that ownership of, and title to, the Licensed Software and all subsequent copies thereof regardless of the form or media is held by Revware and its suppliers.

UNITED STATES GOVERNMENT LEGEND: The Licensed Software and its documentation are commercial in nature and were developed exclusively at private expense. They are "commercial computer software" and "commercial computer software documentation" as those terms are defined in FAR 2.101 and DFARS 252.227-7014(a), and a "commercial product" as defined in FAR 2.101. Consistent with FAR 12.212 and DFARS 227.7202-1 through 227.7202-4, and any successor regulations, the United States Government and its prime contractors and subcontractors acquire the Licensed Software and its documentation with only those rights set forth in this License Agreement, which is Revware’s standard commercial license for the Licensed Software. Any technical data furnished with the Licensed Software is provided with the rights set forth in DFARS 252.227-7015 (JAN 2025) or FAR 52.227-14 (MAY 2014), whichever applies, as those clauses may be amended or superseded. Any use, modification, reproduction, release, performance, display, or disclosure of the Licensed Software or its documentation by or for the United States Government is governed solely by this License Agreement and is prohibited except as expressly permitted by it. Contractor/Manufacturer: Revware, Inc., Raleigh, North Carolina, USA.

ARM MODELS: The MicroScribe arm CAD models and meshes included in the Licensed Software (the "Models") are the property of Revware and are licensed, not sold. Developer may use the Models to

visualize and integrate Permitted Peripheral Devices within End-User Products, and may distribute them as Redistributable Components under the conditions above. Developer may not rename, alter, re-author, or create derivative works of the Models, and may not publish or otherwise release the Models, in original or derived form, separately from an End-User Product, without the prior written consent of Revware. Nothing in this Agreement transfers any ownership interest in the Models to Developer or to any end user.

THIRD-PARTY SOFTWARE: The Licensed Software includes or is delivered with certain software components owned by third parties, which are identified, together with their license terms, in the file ThirdPartyNotices.txt in the docs folder of the Licensed Software. Those components are licensed to Developer under their own terms and not under this License Agreement; to the extent the terms of a third-party component conflict with this License Agreement, the terms of that component govern the use of that component. Revware makes no warranty and assumes no liability with respect to third-party components beyond what is stated in this License Agreement.

TRADEMARKS: MicroScribe and Revware are trademarks of Revware, Inc. Subject to this License Agreement, Revware grants Developer a limited, non-exclusive, non-transferable, revocable permission to use the word marks MicroScribe and Revware solely to state truthfully that an End-User Product operates with, supports, or was developed for Permitted Peripheral Devices (for example, "works with MicroScribe"). Developer shall not (i) alter, abbreviate, or combine the marks with other marks or words, or use them as part of the name of Developer, its products, or its domain names; (ii) use Revware's logos or trade dress without Revware's prior written consent; (iii) use the marks in a manner that states or implies that Revware endorses, sponsors, certifies, or is affiliated with Developer or the End-User Product, or that Developer has any special relationship with Revware; or (iv) use the marks in a manner that disparages Revware or its products. The marks shall be used with the appropriate trademark symbol and attribution where practical and in accordance with any trademark guidelines that Revware publishes. All use of the marks, and all goodwill arising from that use, inures solely to the benefit of Revware, which may revoke this permission at any time on written notice.

FEEDBACK: If Developer provides Revware with suggestions, comments, bug reports, or other feedback about the Licensed Software ("Feedback"), Developer grants Revware a perpetual, irrevocable, worldwide, royalty-free license to use, disclose, reproduce, modify, and otherwise exploit the Feedback for any purpose without obligation to Developer, and Developer represents that the Feedback does not include confidential information of Developer or of any third party.

TERM AND TERMINATION: Without prejudice to any other rights, Revware may terminate this License Agreement if Developer fails to comply with the terms and conditions of this License Agreement. Upon such termination Developer agrees to destroy the Licensed Software and documentation, together with all copies and merged portions in any form. Termination does not affect the right of end users who obtained an End-User Product before termination to continue using the Redistributable Components as part of that product. The sections of this License Agreement entitled LIMITED RIGHTS, TRANSFER AND ASSIGNMENT, EXPORT RESTRICTIONS, TRADE SECRETS; TITLE, ARM MODELS, THIRD-PARTY SOFTWARE, FEEDBACK, TERM AND TERMINATION, GOVERNING LAW, ATTORNEYS' FEES; EQUITABLE RELIEF;

WAIVER, INDEMNIFICATION, DISCLAIMER OF WARRANTIES, HIGH-RISK USE, LIMITATION OF LIABILITY, SEVERABILITY, and ENTIRE AGREEMENT survive any termination of this License Agreement.

GOVERNING LAW: This License Agreement shall be governed by the laws of the State of North Carolina, USA, as such laws are applied to agreements entered into and to be performed entirely within North Carolina between North Carolina residents, excluding (i) that body of law known as conflicts of law, and (ii) the United Nations Convention on Contracts for the International Sale of Goods (1980). The parties hereby consent and submit to the exclusive jurisdiction of the state and federal courts located in the Eastern District of North Carolina with respect to any disputes arising under or in connection with this Agreement. Each party hereby waives any right that it might otherwise have to object to such venue or seek dismissal of the action on the basis of forum non conveniens.

ATTORNEYS' FEES; EQUITABLE RELIEF; WAIVER: In any action to enforce this License Agreement, the prevailing party shall be entitled to recover its reasonable attorneys' fees and costs in addition to any other relief awarded. Developer acknowledges that a breach of the LICENSE, LIMITED RIGHTS, TRANSFER AND ASSIGNMENT, NO REVERSE ENGINEERING, TRADE SECRETS; TITLE, or ARM MODELS sections would cause Revware irreparable harm for which money damages would be an inadequate remedy, and that Revware is entitled to seek injunctive or other equitable relief for any such breach, without the posting of a bond, in addition to its other remedies. No failure or delay by either party in exercising any right under this License Agreement operates as a waiver of that right, and no waiver is effective unless it is in writing and signed by the waiving party.

INDEMNIFICATION: Developer shall indemnify and hold Revware harmless from and against any and all losses, damages, liability, and attorneys', expert witness, or court fees and costs, and any other costs and expenses arising from any third party claims against Revware relating to the display, promotion, performance and/or content of End-User Product(s).

DISCLAIMER OF WARRANTIES. THE LICENSED SOFTWARE IS PROVIDED "AS IS," WITHOUT WARRANTY OF ANY KIND. ALL WARRANTIES, WHETHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF THIRD-PARTY RIGHTS, ARE HEREBY DISCLAIMED BY REVWARE. REVWARE MAKES NO WARRANTY OR REPRESENTATION THAT ITS LICENSED SOFTWARE PRODUCTS WILL MEET DEVELOPER'S REQUIREMENTS OR WILL WORK IN COMBINATION WITH ANY HARDWARE OR APPLICATIONS SOFTWARE PRODUCTS PROVIDED BY THIRD PARTIES, THAT THE OPERATION OF THE LICENSED SOFTWARE WILL BE UNINTERRUPTED OR ERROR FREE, OR THAT ALL DEFECTS IN THE LICENSED SOFTWARE WILL BE CORRECTED. IF SUCH A DISCLAIMER IS NOT ALLOWED UNDER APPLICABLE LAW, REVWARE LIMITS SUCH WARRANTIES TO NINETY (90) DAYS FROM THE DATE DEVELOPER INSTALLED THE LICENSED SOFTWARE ON DEVELOPER'S COMPUTER, AND REVWARE 'S SOLE OBLIGATION WITH RESPECT TO THIS EXPRESS WARRANTY WILL BE TO REPLACE THE LICENSED SOFTWARE.

HIGH-RISK USE: THE LICENSED SOFTWARE AND PERMITTED PERIPHERAL DEVICES ARE NOT DESIGNED, MANUFACTURED, OR INTENDED FOR USE IN HAZARDOUS ENVIRONMENTS REQUIRING FAIL-SAFE PERFORMANCE, INCLUDING THE OPERATION OF NUCLEAR FACILITIES, AIRCRAFT NAVIGATION OR

COMMUNICATION SYSTEMS, AIR TRAFFIC CONTROL, LIFE-SUPPORT OR OTHER MEDICAL DEVICES WHOSE FAILURE COULD AFFECT PATIENT SAFETY, OR WEAPONS SYSTEMS, OR IN ANY OTHER APPLICATION IN WHICH THE FAILURE OF THE LICENSED SOFTWARE COULD LEAD DIRECTLY TO DEATH, PERSONAL INJURY, OR SEVERE PHYSICAL OR ENVIRONMENTAL DAMAGE ("HIGH-RISK USE"). REVWARE SPECIFICALLY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR HIGH-RISK USE. ANY HIGH-RISK USE IS AT DEVELOPER'S SOLE RISK, AND DEVELOPER WILL INDEMNIFY AND HOLD REVWARE HARMLESS FROM ANY CLAIM ARISING FROM IT.

LIMITATION OF LIABILITY: TO THE FULL EXTENT ALLOWED BY LAW REVWARE ALSO EXCLUDES FOR ITSELF AND ITS SUPPLIERS ANY LIABILITY, WHETHER BASED IN CONTRACT OR TORT (INCLUDING NEGLIGENCE), FOR INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES OF ANY KIND, OR FOR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE SALE, INSTALLATION, MAINTENANCE, USE, PERFORMANCE, FAILURE, OR INTERRUPTION OF THE LICENSED SOFTWARE, EVEN IF REVWARE OR ITS AUTHORIZED AGENT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, AND LIMITS ITS LIABILITY TO REPLACEMENT OF THE LICENSED SOFTWARE. THIS DISCLAIMER OF LIABILITY FOR DAMAGES WILL NOT BE AFFECTED IF ANY REMEDY PROVIDED HEREIN SHALL FAIL OF ITS ESSENTIAL PURPOSE.

SEVERABILITY: In the event any provision of this License Agreement is found to be invalid, illegal or unenforceable, the validity, legality and enforceability of any of the remaining provisions shall not in any way be affected or impaired and a valid, legal and enforceable provision of similar intent and economic impact shall be substituted therefor. The headings used in this Agreement are for convenience only and shall not be considered part of the Agreement.

ENTIRE AGREEMENT: This License Agreement sets forth the entire understanding and agreement between Developer and Revware, supersedes all prior agreements, whether written or oral, with respect to the Licensed Software and subject matter hereof, and may be amended only in a writing signed by both parties.

With the use of the enclosed materials Developer acknowledges that Developer has read this Agreement, understands it, and agrees to be bound by its terms and conditions.
